

TERMS AND CONDITIONS

PRICING – Prices shown on this price list are for “Print Ready Files” only! While we do accept “Non-Print Ready Files” additional handling and processing charges will apply and will increase the time it takes us to produce your order. These additional handling charges will be added automatically to your invoice. To receive the lowest pricing and the quickest turnaround, place your orders thru CustomTradePrinting.com in any of the “Print Ready File” formats described on this price list. CustomTradePrinting.com accepts the following file formats: PDF, JPG, EPS (please convert fonts to outlines), TIFF and P.S.

“NON-PRINT READY FILES” – Some examples (not an all inclusive list): E-mailed, orders that require phone clarification or interpretation, orders submitted on digital media, files needing resizing, files without the proper bleeds and margins. As a general guideline non-print ready files will incur additional handling charges of \$5.00 per file for business cards and postcards and \$15.00 for other products.

RE-RIPPED FILES – If you find that you need to resend a file to us please contact us promptly. Generally orders are processed as soon as we receive them. If re-processing and re-ripping is required a \$25.00 charge may be required. If the order has entered printing production additional wasted plate charges may apply.

ADDITIONAL CHARGES AND SERVICES – Orders that require typesetting, scanning, proofing or customer clarification will affect production schedules and incur additional charges. Special processing, handling, or packaging will also affect production schedules and incur added expenses.

SPECIAL QUOTES – Special pricing is available on larger quantity orders and special situation orders. Contact our Customer Service team to receive the best price possible. All special quote pricing will be in written form only and valid for 30 days. To receive this special pricing please reference or attach the written special quote to order when submitted. Expenses incurred not specified in the written quote will affect production times and actual cost billed.

CANCELLATION – Not all orders can be cancelled. Wasted plates, processing expenses, materials ordered and black run slot charges will be billed on cancelled orders.

PROOFS – CustomTradePrinting.com supplied proofs are available upon request at an additional cost. Color will be reasonably close to what we produce on our press. Proofs will accurately show design layout, text accuracy, image size and placement. Please obtain the proper approval from your customer prior to placing your order.

CHECK YOUR FILES – Make the time to preview all files before they are submitted. Files that are not correctly prepared, have missing elements, are incorrectly sized, have incorrect bleeds, or require additional processing will result in production delays and additional charges.
